

FORCE BUILDING

Remember that the basic requirement to make a game of **Dystopian Legions** 'rules-legal' is a HQ and ONE Line Section. You can then add an Elite or Mercenary Section to this and potentially a Support Section. But these are both optional.

The purchase of your Second Line Section opens up the options for a Character, TWO additional Support Sections (one of which may be exchanged for an Elite Section), or if the player feels he has sufficient manpower then they may replace BOTH of these Support Section options with the steel fury of a SINGLE Heavy Support Section! Subsequently, the purchase of a third Line Section offers a fresh array of choices.
